ARTIFICIAL INTELLIGENCE

DAMIETTA UNIVERSITY

SMARTLAB

SMART LABORATORY MANAGEMENT SYSTEM

ABOUT SYSTEM

An intelligent laboratory management system integrating RFID, Face Recognition, IoT, and Web Technologies to automate attendance, control laboratory resources, and enhance security.

KEY FEATURES

Automatic Attendance

Track attendance using RFID & Face Recognition

RFID Authentication

Secure & fast RFID card access

Face Recognition

AI-powered face verification

Smart Door Access

Servo motor controlled smart door

Lab Light Control

Control lab lights remotely

Online Exam System

Conduct & evaluate exams online

Access Log System

Monitor & export all access logs

IoT Integration

ESP32 based IoT smart system

SUPERVISED BY

Dr. Ahmed Mohamed Rabea

Lecturer

Faculty of Computers & Artificial Intelligence
